THE TRIBUNE.

Political Speech by Ex-Gov. Seward. The Whigs of Cayuga County held a Convention at Auburn on the 23d inst. for the nomination of County Officers. It was well attended and marked by harmony and enthusiasm. Robert Johnson, of Ira, Benjamin F. Hall, of Auburn, and Ashbel Avery, of Genou, were nominated as candidates for the Assembly. A series of Resolations was reported by Hon. Christopher Morgan, strongly in support of the existing Whig Tariff, in favor of the system of Internal Improvements, hostile to the stop policy of Loco-Focoism, urging the support of the dignity and rights of the Empire State in opposition to Virginia Inspection Laws, and concluding as follows:

Resolved, That the anticipated fruits of our glorious vicary won in 1840, under the banner of the gallant and la-mented Harrison, have been lost to us through the unexampled treachery and periody of John Tyler, who has now formed an undisguised alliance with Loco-Focoism-yet hiving a country to love, a common interest to promote; the memory of a Washington, an Adams and a Harrison to cherish, we will again nail our flag to the mast-head, and with HENRY CLAY, the FARMER OF ASHLAND, as out leader, we will triumph in 1844 as we did in 1840."

These were adopted by acclamation. Ex.Goverror Saward was then loudly called upon and made the following remarks, as we find them reported in the Auburn Journal: Mr. President and Fellow-Citizens :

Ishould have been remiss not only in fidelity, but in grati-rude, if I had not availed myself of this, the first occasion which has occurred, since resuming my residence here, to enew my political association, with my earliest and most

renew my porter association, which my carries and most mied friends, the Whigs of Cayinga county.

You have kindly said that my voice has not recently been heard in your assemblies. But you need not be reminded of my apology. If there has been a fault, it has been yours, than mine. My fellow citizens throughout the State more than mine. My lellow citizens throughout the State called me away from here, to an arduous and oppressive must. But it was from your prompting, that they called. I cannot forget, I can never forget, my obligations to the Whigs of the State of New-York, and to every one of them; but even those obligations resulted from your favor. I had been as obscure this day as even an enemy could wish, had I not through many years enjoyed the same confidence and kindness now beaming in the faces of all around me.

You adopted me, a youthful stranger, twenty years ago, and through all occasions of joy and sorrow, and many conflicts of varied fortune, you adhered to me, cherished me, and sustained me, until, by such distinguished favor on your part, I was commended to the confidence of our fellow citi-zes throughout the State.

And now the separation is over, the duties of my high of-fix have been performed, whether for good, or for evil, to you and to the people of this State, is for impartial time to determine. I dare not indulge the hope that your kindness impires; but if anything has been done for the cause of our country, or for the cause of right popular government, it must be largely referred to yourselve-I come back to you again, as humble in spirit, and as confiding in your generosity, as when I first came, twenty years ago. If any honor or respect has been gained, I bring it to you. I wish the sheaf were fuller, I wish it had ripened better. But such as it is, Ilay it down before you. Unworthy as it is of your accept-

connection with the Government of this State. This co-iscidence has affected me more deeply than I can describe, for it has raised a hope that I have not altogether erred, nor labored altogether in vain.

A superficial observer might think there was cause for sad

A superficial observer might think there was cause for sale as in the circumstances of our re-union: I left you a strong, a triumphent party. I find you dinainshed in numbers, and halting in a retreat. But there is nothing painful in this; if it were a question personal, with myself only, I would not have it otherwise. It shows me that there is something to do, where I owe so much. Your recruiting list is thing to do, where I owe so much. Your recruiting list is open, and you will not reject a volunteer. In that character I desire to re-enlist; I wish no preferment for myself. I want to aid your candidates. They have been true and faithful to me, I want to prove my gratitude, by showing that I can be true and faithful to them. And I shall be able to render distinctereted service, for I am paid, and overpaid already, for all the service I can render. There is no honor, or preferment in the power of my fellow-citizens to bestow, that could seme now, from the tranquil pursuits of private life. Nor shall I seek to influence your action. In the exercise of discipline, I have learned the duty of submission, and my services will be all the more cheerful, because I am relieved

from the responsibilities in Council.

Now is there any cause for discouragement? We have suffered a political defeat. What party has not? What party that adhered to principles, has not suffered occasional defeat? As for us, we have been accustomed to service and sacrifices. Our chief betrayed us. What army would not have been thrown into disorder by the defection of its commander ?-Nevertheless, though obliged to retreat, we have retreated without dismay; we have regained a safe battle-ground—the old battle-ground. The enemy no longer pursues us, but is suffering the usual distraction of victory. We have lost some of our numbers, but we have gained in harmony and vigor by the loss. We are all good and true men that are left. Our Cayuga Regiment never knew mere holiday service and never before was in as sound condition as now. Let us remember the elements of political success. These are, first, to select good, faithful and discreet men for leaders; let them be firm men, men tried as by fire. You have nominated such for Coroners, for Clerk, and for Representatives; let them have our support, from this moment, now and henceforth. When our Conventions shall have nominated the candidates for Senator, for Governor, for Lieutenant Governor, for President and for Vice President, let them at once receive the realous, the enthusiastic support which they shall deserve, not merely by personal merit, but by the measures to which they shall be pledged, and by the principles that are at stake

think, that a more available or beneficial designation might have been made, let us all remember, that by the election of those designated, we secure the adoption of many important principles, while by their defeat, we hazard the loss of all useful measures, and the overthrow of all cardinal principles. Measures are more important, now and always, than men The great interests of Agriculture, of free labor in every department, are to be sustained, by sustaining our Whig Tariff a policy that involves no less than the real independence of a policy that involves no less than the real independence of our country. The restoration of public credit, and individual prosperity and the public honor, and the preservation of public virtue, are to be affected or promoted by the distribution of the surplus avails of the public lands among the several States. The public works, the monuments of the glory and power of our State, now prostrate throughout all its borders, are to be re-established and preserved. The rightful sovereignty of our State, and the supremacy of the Constitution of the United States, are to be vindicated against the pusillanimity which would make us a party to the accursed system of human slaver.

And last of all, the principles of universal political equality, and of universal education, essential to moral and social progress; the establishment of the great truth of the Declar-

in all our contests.

PETERS VEGETABLE PILLS have now been in general use more than ten years, and the public, taught their value by experience of their wonderful curative properties, have accorded to them a celebrity unparalleled in the history of medical science in this or any other country.—Testimonals of cures from every quarter of the Union, and from individuals in every condition of life, are their credentials, and unless thousands of respectable men have voluntarily entered into a conspiracy to deceive their feilow citizens, these preparations act upon the human system in a manner little short of miraculous.

We are told by a certain class of empirics, who understand nothing of the functions of the vital origins, and are ignorant probably, of their relative positions, that medicine acts interest which enters into the stomach must undergo.

PRIELS VEGETABLE FILLS and CATHARTIC LOZF NGES do indeed PURIFY THE BLOOD, but it is by purifying the chyle, bile, and all other fluids from which blood is generated. theme is a broad and inviting one, and admits of great dramatic effect of development, but Mr.

Cannon has too modestly chosen rather to con-

this he has been very successful, nor would he be

adventurous spirit of his hero; however what he

has given us is creditably done, and interesting.

The fugitive pieces rather win by their gentle-

WHEN worn with toil and bowed with care,

That man must with the world maintain;

Are feebly thus, in words expressed-

To the parched Earth, thy gentle voice,

Or sinking in the unequal strife

Or fainting in the march of life;

How oft the yearnings of the heart

"Oh like the dove had I but wings

To flee away and be at rest !"

Then sweeter far, than summer rain

And bids it in its wo rejoice :

For that the hour is now at hand

Oh, blessed Faith! falls on the heart

When sorrow shall no more molest-

The wicked shall from troubling cease,

And when the weary shall find rest.

THE WILD CHERRY IS OUR PANACEA for all affections of the Lungs and Liver.—Listen to the proof:

HADDONFIELD, N. J. April 20, 1813.

On or about the 13th day of October, 1811, I was taken with a violent pain in the side near the liver, which contained about five days, and was followed by the breaking of an ulcer or abscess inwardly, which relieved the pain a little, but caused me to throw up a great quantity of offensive matter, and also much blood. Being greatly alarmed at this, I applied to a physician, but he said he could do but little for me except to give me some MERCURY 1818, which I refused to take. Many other remedies were then procured by my wife and friends, but none did me any good. The discharge of blood and corruption still continued, every few days, till at last it became so offensive that I could soarcely breathe. I was also seized with a violent cough which at times caused me to raise much more blood than before. My disease still grew worse till February, when all hopes of recovery were given up, and my friends all thought I must die of a galleping Consumption.

At this time, when apparently my life was drawing near its close, I heard of Dr. Wistar's Balsam of Wild Cherry, and got a bottle, which relieved me immediately, and by the use of only three bottles of this medicine all my pains were removed, my cough and spiring of blood and corruption entirely stopped, and in a few weeks my health was so far restored as to enable me to work at my trade, (that of a carpenter,) and up to this time I have enjoyed good health.

COMETHING NEW IN GOTHAM—House-by Keepers Take Notice.—Walley's Patent Gothic Cooking Range. This important improvement, comprises every possible convenience that can be applied to a Cooking Range, and will recommend itself to every house-keeper for its beauty, simplicity, convenience, durability and economy. It is made entirely of cast iron, (Gothic style) 21 inches high, filled up to a level surface; will do double the work of the ordinary range with one half the quantity of fuel, and can be set in any fire place by an ordinary mason in the space of 3 or 4 hours. fire place by an ordinary mason in the space of 3 or 4 hours.— It has the following advantages over all others, viz: A large of the other side, which can be used or not as convenient; it is so constructed that a part or the whole of the range can be used, and by the adoption of a fulse grate can be used with the greatest economy in summer of winter; thus obviating their ecestity of burning a large quantity of fuel to do a small quantity of work. Also a new arrangement for heating a large quantity of water for Baths or Culinary purposes, together with a contrivance for heating rooms which can be attached if desired. The inventor having spent a great deal of time and labor in perfecting this Range, can confidently recommend it as the very best and most economical ever offered to the public, and would invite those about erecting buildings, or introducing Croton Water, to call at 106 Fulton st. between Nassau and William sts., or at Geo. WASHINGTON ELIXIR.-A pure vegetable W compound.—"Nature's God has secreted in the vege-table kingdom, sale, sure and speedy remodies for all diseases; to search for and discover these, is a part of man's allotted toil." This well known assertion of Dioscorides, one of the most profound of the ancient philosophers, has received another evidence of its truth and wisdom, in the discovery of the Washington Elixir, which, for its many virtues, may be called a God-send to the afflicted! It is only necessary to say of it, that hundreds of our best citizens can attest its almost magic power in thoroughly curing that most intolerable of all

diseases—AND AGUE.—The Washington Elixir is equally efficacious in the cure of Cholera Morbus, Bilious Cholic, Diarrhora and Dysentery. Worms and Dyspepsia. The Washington Elixir being composed entirely of Vegetable substances, is, of course, perfectly simple and harmless, though unequalled for the rapidity and vigor with which it compels the stomach to perform the peculiar functions required in effecting a radical cure of the above mentioned diseases—one dose having, not unfrequently, caused a permanent cure.

The following extract of a letter is from a highly respected clergyman of the Baptist Church:

New-York, March 10, 1639.

Dear Sir-I fiel it my incumbent duty to say, having formerly been prostrated by means of the asthma, and (although relieved of that) my lungs have ever since been sensitive.

Having recently taken a violent cold, I was severely afflicted with the Influenza, so that a hard cough prevented my customary repose, and consumption ascensal to be the inevitable consequence. But having seen a notice of your 'Indian Expectorant,' lapplied to one of your agents, of whom I purchased two bottles, which restored me to perfect health.

CURE OF DYSPEPSIA AND DROPSY.

Mr. Kelly-Dear Sir-I have been afflicted for 8 or 9 years with a distressing pain in my stomach, costiveness in my bowels, my limbs very muck swollen. After eating my meals I was in great distress for a short time, and then threw up what I had eaten. In short, sir, I have scarcely found rest or comfort during that time. I have tried all kinds of medicine that I could think of, to little or no advantage, and had almost given up all hopes of ever getting any relief, being now 68 years of age. I saw the advertisement of your Double Extract of Sarsaparilla Candy, and I thought I'd try once more. I have taken it now about 6 weeks, and it has campletely regulated my system. I now eat any thing that comes before me, and have not been sick since I commenced taking it. I sincerely and heartily thank God, and render my good will and thanks to you, for I believe your Candy has been the means of giving me health and comfort in my old age. You are welcome to make any use of this your may think proper.
